Tech Stack - CakePHP, Mysql, JS, Jquery, Browntape APIs, Custom Logging, Crons, Python, Webhooks

•Designed this application and developed in 10 days and released the beta version of this product with 2 clients live.

•Worked on design flow and database architecture of the application which handles a huge amount of data via API calls via Crons.

•Worked on backend and frontend and Managed the entire application.

BTAuth (Chrome Extension)

Project description -It helps to organise the level of visibility of data to employees of browntape and their access.

Tech Stack - Core PHP, Mysql, JS, Jquery, Bootstrap, Google APIs

•Worked on the design flow of the application and designed database architecture.

• Backend coding and final release flow were developed.

Sachmuch (http://sachmuch.com/)

Project description - It is a crowdfunding networking platform. Organizing occasions, raising funds, running web campaigns.

Tech Stack - CakePHP, Mysql, JS, Jquery, Bootstrap, Facebook, Linkedin, Twitter APIs

•Worked on backend and front-end.

•Worked on core modules and managed the database tables relation.

• Integration of UI and enhancement into the existing code for faster page loads.

Thathrowdown (http://www.thathrowdown.com/)

Project description - It is an online entertainment networking platform which provides a platform to musical talent to empower by self.

Tech Stack - Core PHP, Mysql, JS, Jquery

•Worked on the backend to maintain the code and added new features to the application.

•Worked on API integrations and managing payment services ledgers at application.

CR Systems (http://crsystems.co.uk/)

Project description - It is a modular 360-degree feedback survey and potential analyzer application.

Tech Stack - Wordpress, Core PHP, Mysql, JS, Jquery, Custom Theme

.• Worked on the backend to maintain and added new features to the application.

• Complete UI change was implemented with the theme.

• Created and deployed the modified version of the application.

Dupe (http://www.dupeaustralia.com.au/)

Project description - Dupe is a footwear company which provides a wide range of footwear. Web Store Application.

Tech Stack - BigCommerce, Core PHP, Mysql, JS, Jquery

.• Worked on the backend to enhance features and added new features to the application.

• Worked on the admin module to make efficient handling of the web store at the admin level.

Education

MCA: Computer Applications, 2013, 76.11%, Vishveshwarya Institute of Engineering and Technology - Ghaziabad, UP

BCA: Computer Application, 2010, 76.11%, University Department of Computer Application - Bhagalpur, Bihar

---

Personal Information

- Date of Birth: 15th July 1987
- Father's Name: Mr Arvind Kumar Pandey
- Mother's Name: Mrs Arti Pandey
- Emergency Tel. Nos: 09934877132, 09993716844

Additional Information

- Participated in various conferences, seminars and hackathons
- Learning system design architecture

Date: SHIVDHWAJ PANDEY
